

## Table 3 Allocations of Household Expenditure from the ABS 2015-2016 Household Expenditure Survey

The table below shows how each expenditure category has been allocated for the purpose of calculating the dependency percentages in Table 1 and the allocation percentages in Table 2. Due to Table 1 being based on a higher number of detailed expenditure categories than the Previous Table, some newly available sub categories have been categorised in a different manner to the way in which the Previous Table categorised the higher level, more general categories.
